CYPRUS ECOLOGICAL-ENVIRONMENTAL MOVEMENT (THE GREEN PARTY OF CYPRUS)

The Cyprus Ecological Environmental Movement was registered in 1996, aiming to promote sustainable development and protection of the environment, through action and legislation, information and sensitisation of the public. All proceedings are open. Action and field work today concern environmental management pollution, energy conservation, water management, GMOs, bioethics and biotechnology, bio culture, electromagnetism, antennas, wild-life, migratory birds, bio-diversity, cultural heritage, right to information etc. The Cyprus Greens are represented in Parliament by one MP and at local governance by two counsellors. Further information is available on our website: www.cyprus-green-party.org
